A snapshot of the Fyshwick Trade Skills Centre
Plumbing Department

Certificate III in Plumbing - 450

Certificate IV - 130

Full time staff - 7

Casual Staff - 8

eLearn-online learning environment in the ACT

eLearn – The Project

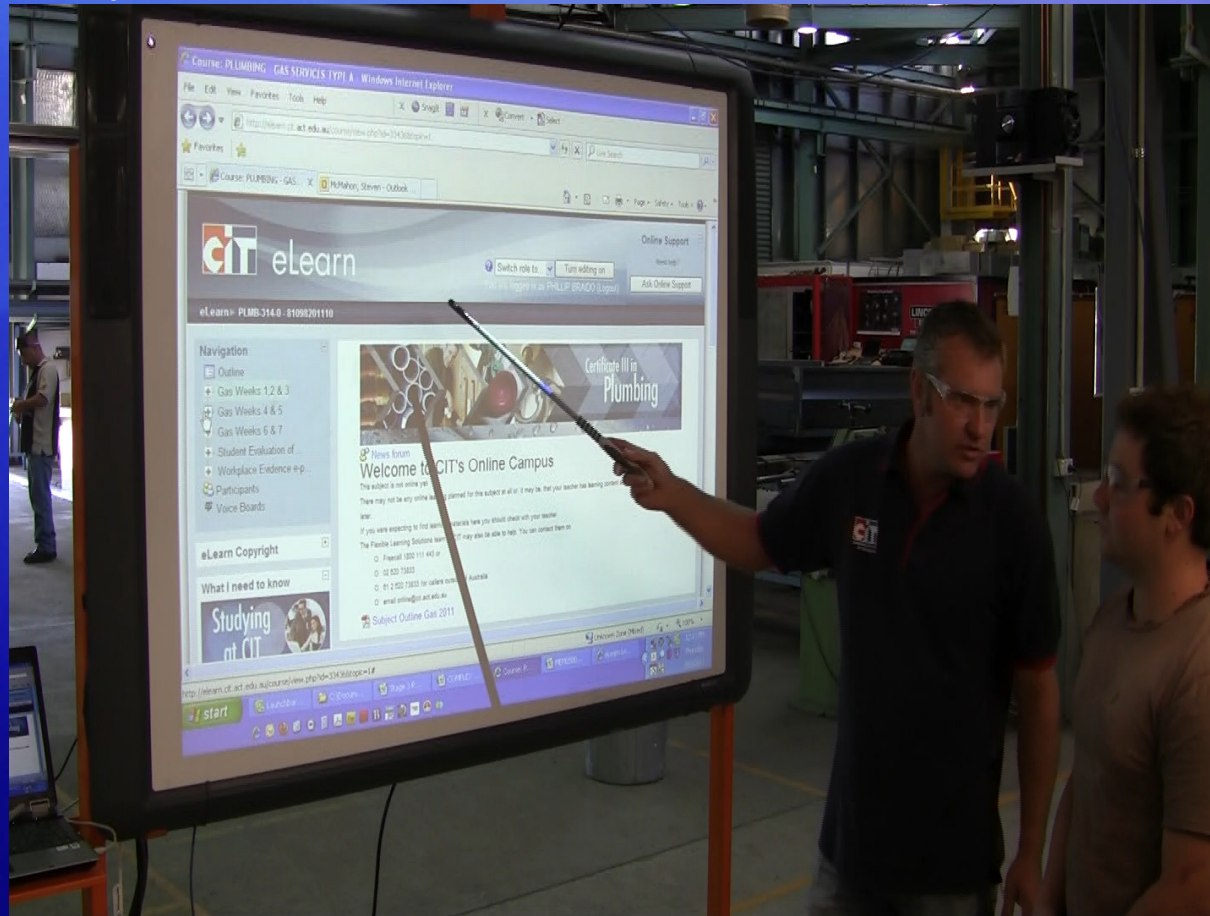

- eLearn allows students, staff and other CIT users to access all educational services and systems across all CIT campuses, at their workplaces, through public internet access points (local libraries), and their homes

eLearn – The environment

- eLearn is made up of three main systems
 - 1.A learning management system (Moodle)
 - 2.A “ live“ virtual classroom (Wimba)
 - 3.A digital learning object repository (Equilla)

<https://elearn.cit.act.edu.au/login/CIT/login.php>

The screenshot shows a web browser window displaying the eLearn platform. The browser title is "Course: PLUMBING - ROOFING (A) - Windows Internet Explorer". The address bar shows the URL "http://elearn.cit.act.edu.au/course/view.php?id=33439". The page features a navigation menu on the left with the following items: Outline, Introduction to roofing, Fabricate & Install Ro..., Box Guttering, Roof Shapes, Expansion, Flashings, Install Roof Sheeting, Curved Roofing, Collect & Store Roof W..., Recieve Roofing Materials, Topic 11, Topic 12, Revision, Topic 14, Workplace Evidence e-p..., Topic 16, Topic 17, Student Evaluation of..., Topic 19, Topic 20, Participants, and Voice Boards. The main content area displays a banner for "Certificate III in Plumbing" with a photo of two workers on a roof. Below the banner, there are links for "Introduction to course", "News forum", "Book 1", and "Subject Guide". The top right corner includes an "Online Support" section with a "Switch role to..." dropdown, a "Turn editing on" button, and an "Ask Online Support" button. The user is logged in as "PHILLIP BRAIDO (Logout)".

Challenges

Time.

Training and support.

IT Resources.

Support infrastructure.

Maintenance of online resources-who maintains them?

Benefits

Immediate feedback for students on assessment.

Reduces physical marking of assessment.

Standardization of delivery content.

Delivery of online resources through range of media (iphone,ipads etc).

Geographical barriers eliminated.

Flexibility – Student\learner centred.

Large database of resources through collaboration from teaching staff.
